Dear Matt

Re: The 3 new consulting rooms and seminar room in the practice.

The partners of the practice have asked me to write and convey their gratitude to you and your team for providing us with these wonderful consulting rooms. Everyone has been astonished as to how you have managed to produce these three bright well equipped rooms from the old staff room and storage room. The excellent workmanship and speed has also been noted, even our patients have commented on how great and modern it all looks. It was especially appreciated that there was very little disruption to the staff and the patients as you planned the work carefully around our schedules' which wasn't easy as we had to accommodate the swine flu clinics and extended hours as well.

The seminar room has been a particular success, as the practice staff are now using it all the time, and we have even opened it up for a weekly Baby clinic and we will soon be using it for evening meetings for the wider health community.

On a personal note, Matt, as a Practice Manager running a very busy surgery, you made the project run so smoothly, that I was able to completely rely on your judgement and experience to ensure that everything was well within budget and where we encountered problems you had a ready solution, so a very big thank you from me as well. Until the next time!

With kind regards,

Maura Preece
Practice Manager
